

2 and Parou

✓ No Smoke✓ No smell

Our bio fuel gel offers the perfect alternative and a hassle free way of enjoying a real flame. It is a clean burning bio fuel, eco friendly and a source of having a real living flame fire whether it's indoors or outdoors. ABSOLUTLY FANTASTIC ! This bio fuel gel will not ignite easily, it burns smokeless and virtually odourless with a super bright flame. Our bio fuel gel burns wherever they are applied –

In fire bowls, in a burning barrel, on charcoal, wood logs, and even on ice. Guaranteed to be safe, simple to use, and particularly economical. This bio fuel gel is flammable, so always take care in storage and keep out of reach from children.
